OUR EXPERTISE

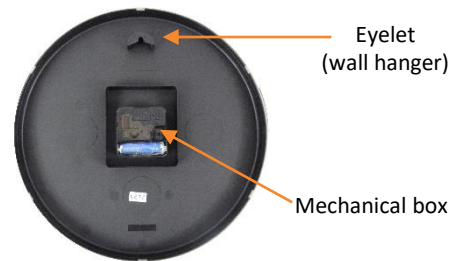

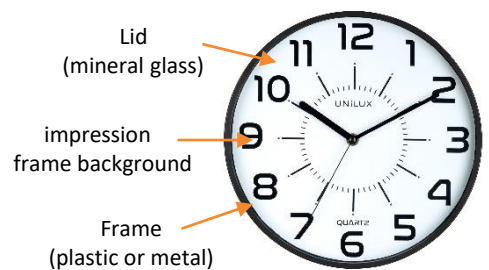

A clock is a must-have accessory that fits perfectly into any room in your business:

- individual office
- open space
 - meeting room
 - Passing places
 - lobby

Setting up a clock in a workspace allows employees to avoid checking the time on the smartphone or tablet time and therefore not be tempted to look at their messages or browse the internet by same occasion. Thus a clock allows to gain in concentration and productivity because the employees are less distracted.

For good readability from a distance, it is important to have:

- good contrast between the background of the dial and the color of the numbers (better contrast with white background / black numbers)
- A good height of the figures (about 3cm minimum) and in Arabic characters preferably
