## WHEELBARROW EKEBY B35 MULTI

Hörby Bruk's mortar wheelbarrow is equipped with two extra wheels that facilitate side tipping. This function makes it easy to distribute mortar, asphalt, or concrete evenly and in a controlled manner along a surface, saving both time and effort during work. The wheelbarrow is designed with a deep and narrow shape that ensures good maneuverability even in confined spaces. The fully pressed tray is welded directly to the frame for maximum stability and durability. A smooth interior prevents material from sticking to bolt heads, making it easy to work with and clean. The sturdy handles are fitted with knuckle guards for increased safety, and the leg supports have wear plates that provide extra durability during frequent use.

- ▶ Facilitate lateral tipping
- ▶ All welded, heavier professional barrow with 1.35 mm steel
- ▶ An Ekeby-classic with the professionals
- ▶ Delivered assembled
- ▶ Made in Sweden
