

1309 100 K PLASTIC TRAY PINK

In private gardens, in horse stables, in agriculture, at park administrations, or in other places where large volumes of lighter materials are handled, the wheelbarrow with a plastic tray is perfect. The plastic tray makes the wheelbarrow lightweight, and it does not rust. Additionally, the wheelbarrow is equipped with a sturdy front tube on the tray, which protects the tray and provides a more stable tipping function.
